

Casabella Carpet by Your Floor Store

Casabella Carpet

The customizable Casabella Carpet line is one of the most complete offerings of products in one display that anyone has to offer.

New products added in August will increase the product line to 32, with all of the 24 residential products and 3 of the commercial products being "IN STOCK" for immediate pick up or delivery.

Casabella Carpet offers a variety of price points for level loops,

graphics, patterned carpet, berbers, plushes, wool blends and frizzes.

The display is a 2-tier wood grain rack with an accommodating low profile. The easily replaceable cards feature room scenes and quick access to detailed product information.

The title on the display is customized to include the name of your store.

Contact your All Tile Sales Representative for more information on the Casabella Carpet display.

Casabella Carpet In Stock Program

The new Casabella Carpet program was developed to offer the dealers a selection of products that cover the most commonly sold items for retail and the builder oriented markets.

All the residential items are "IN STOCK" for immediate delivery and can be sent out the next day or even will-called the same day.

At present, there are seventeen cards showing twenty different products.

The cards feature room scenes and product information for easy reference.

The commercial products were chosen not only for their commercial application but also because they make great products for the active areas of the house.

Three new residential items will hold up to 36 different cards and only take up 60" x 30" of floor space. Contact your All Tile Sales Representative for more information.
